Biography

I'm a creative front-end developer and designer. I love projects where aesthetics and technology come together, from a sleek interface to a social media post or a short promo video. That broad mix is exactly what sets me apart. Whether it's for a local entrepreneur, a tech startup or a personal project. I always give it a hundred percent.

Work experience

Front-end Developer Internship Claritalk Zulte

March 2026 - June 2026
